1. ENEMY SITUATION AT END OF PERIOD:

The Division was not in contact with the enemy during the period.

2. ENEMY OPERATIONS DURING PERIOD:

The units of the Division throughout the period continued to round up and evacuate thru PW channels members of the enemy armed forces and individuals who had been classified as security threats.

3. MISCELLANEOUS:

a. Prisoners - 414 PWs passed thru the Division cage during the period. Total for this operation 1,478. Grand total 28,368.

b. Miscellaneous - 28 Hitler Jugend members, 13 to 18 years old, were apprehended in general area C5060 by 17th Engr Bn through information gained from civilian sources. Hitler Jugend were well armed with pistols, were banded together, and contemplated sabotage. These Hitler Jugend are being tried today by Military Government. (See: 2nd Arm Div Int Bul #4)

Two Germans in a French car No. 360469 wearing American helmets and shirts, and German jackets have been observed in the 2nd Arm Div zone. The 2 men are between 22 and 25 years old and are armed with rifles and pistols. (See: 30th Inf Div G-2 Rpt)

One of our regiments occupying the west bank of the Rhine reports that it places ladders across a gap in a blown bridge for an hour each morning and evening and ushers through our lines those of the crowd assembled on the east bank who are eligible by virtue of uniform to become PWs. When all uniformed personnel have been received, the ladders are pulled in. Civilians and soldiers who were so thoughtless as to destroy their uniforms, remain milling on the far shore. It is said that these folk have the appearance of ones suffering from an ache of conscience. (See: 2d Inf Div - Thru G-2 Rpt #309 1st Div)

c. Weather - Continued cloudy to partly cloudy tonight and tomorrow with possible light showers throughout the period. Little change in temperature.

d. Password - WALK reply ALONE from 021200 to 031200 May 1945.

ENEMY SITUATION AT END OF PERIOD:

Division was not in contact with enemy during the period.

2. ENEMY OPERATIONS DURING PERIOD:

The units of the Division continued to assemble and evacuate thru PW channels members of the enemy armed forces and individuals who had been classified as security threats.

About 1500 an American officer observed a boy of about 12 years cutting telephone wire vicinity WOODCOLTERN X2017. The boy was not apprehended since he had disappeared into some woods in the vicinity - his parents are being held.

3. MISCELLANEOUS:

a. Prisoners - 460 PWs passed thru Division cage during the period. Total for this operation 1,938. Grand total 28,828.

b. Miscellaneous - Spotting the Nazis - 1. Religion: "One indication can be found in the Soldbuch if the man is listed as a Catholic or Protestant, he is probably a lukewarm Nazi at best. If, on the other hand, he is described as a 'Gott-Gläubig' or 'Gott-Glaubig' (believer in God), he is sure to be a Nazi. Catholics and Protestants, it seems, call themselves that; Hitler boys just call themselves believers. 2. First Names: "Another possible indication is the subject's first name. True-blue Nazi parents would never call their offspring anything as degenerate as Hans or Fritz or Herman. They went in for such laryngeal stupefiers as Kunigunde (girl) and Gisela (boy). The prisoner said a 'Gisela' could be put down as a Nazi before he said that he never once fired his rifle at American troops. Other favorite Nazi names for males are Thor, Wotan, Siegfried, Attila, Alaric, Gernot and Tego. Wimmerk, another male favorite, is an alternate spelling of 'Wimmer', so adopted because Hitler likes it that way. Ute and Uwe are names handed down from the original settlers of the Frisian Islands. On the female side, Unna, Hitlerike, Brunhilde, Krimhilde and Edeltraut are favored by Nazi mothers." (See: G-2 Rpt, XV Corps)

Telephone Security: 1. Telephone conversations are NOT SECURE. Never mention secret or confidential matters over the telephone.

2. The instructions in Par 1 will be prominently reproduced at the front of all telephone directories published in this Division.

Division was not in contact with enemy during the period.

2. ENEMY OPERATIONS DURING PERIOD:

The units of the Division continued to assemble and evacuate thru PW channels members of the enemy armed forces and individuals who had been classified as security threats.

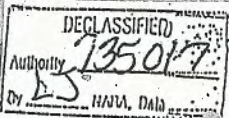

The XIII Corps reports as follows: Aggressive activity by the enemy on Corps front was almost non-existent during the period, but in all other respects the enemy spent a most active day indeed. Enemy Trs attempted in every possible way to escape across the ELBE R into our lines, destroying much of their equipment before so doing. One of the causes of the collapse of the enemy on this front was not far to seek - the long awaited contact with Trs of the Russian Army was effected when a patrol Fr Co "D", 333 Inf Regt, met Trs of Div Cijazov (named for its CG) of LXIII Russian Army corps in BALOW Y7790 at 1630R. Further contact was later made at RUMSTADT Y7868 and Russian Trs were rptd entering JAGEL T6001 at 1800R. The reaction of German Trs to the Russian Adv was in diametric contrast to that urged upon them by Grand-Admiral Doenitz on 1 May. Maps surrendering was the order of the day. The surrender of Div z.V. to 29 Inf Div progressed in a systematic manner, with approx 5000 Trs of the Div processed through 29 Inf Div cage before the closing of the ELBE R ferry line. During the Div z.V.'s motor march to the surrender area other enemy units fell in line, including Elms of 5 Light Div and some Trs of III SS Pz Corps, and they too gave up the fight. 84 Inf Div also had a very full day. Besides contacting our Russian Ally, the Div accepted the surrender of 3 German Div commanders and 1 Corps commander; the complete, though understrength, GAF Div Frohner, and sizeable Elms of the 3 Marine and 199 Inf Divs. (See: G-2 Rpt 176)

3. MISCELLANEOUS:

- a. Prisoners - 301 PWs passed thru Div cage during the period. Total for this operation 2,239. Grand total 29,129.
- b. Miscellaneous - All unescorted vehicles carrying members of the enemy's armed forces will be halted in the sector of the Div and an armed escort will be sent with the vehicles to the nearest PWE.
- c. Weather - Generally fair tomorrow with broken clouds and poor visibility in the morning due to light fog - little change in temperature.

2. ENEMY OPERATIONS DURING PERIOD:

The units of the Division continued to assemble and evacuate thru PW channels members of the enemy armed forces and individuals who had been classified as security threats.

Beginning early in the period many unescorted vehicles filled with enemy soldiers came into our area, and these soldiers were escorted to the Army PWE.

3. MISCELLANEOUS:

a. Prisoners - 928 PWs passed thru Div cage during the period. Total for this operation 3,167. Grand total 30,057.

b. Miscellaneous - Recent River Scenes:- Strange and interesting things happened when the Russian steamroller chased the Germans against the ELBE. Scenes like these are just snapshots of the action. Assault guns rolled up to the water's edge, occupants stream out, pour gas on the vehicles, set them afire and crews dash for the river to find a way across. A Fraulein dashes up to the water, strips down to her birthday suit and dives in. Doughboys of 1st Bn, 333d have a grandstand seat as the mermaid emerges, "dripping and shivering in the morning sun", "covering her nakedness with fluttering hands." Further details not available. One Kraut swimming over seemed to be clinging to a couple of the floating logs except that upon reaching the bank he pulled on one of the logs which turned out to be a wooden leg - tucked the other spare leg and hobbled away on his one good and one wooden leg. (See: 84th Inf Div G-2 IR #167, 3 May 45)

At approximately 0400 hours, 30 April, a booby-trapped window cost a soldier from the 116th Inf the loss of one of his hands. This soldier, needing a piece of wire, found a length dangling invitingly from a window in a barn, that has been occupied in the past week by our troops. In his attempt to pull the wire from the window an explosion was caused. (See: 29th Inf Div G-2 Rpt #320)

~~SECRET~~CONDITIONS IN GERMANY

(Based on intelligence obtained from various sources within Ninth U. S. Army, a preliminary report has been prepared describing the reactions of the German people to Allied occupation. The following highlights are extracted from the report and published for interest and information.)

1. Thanks to the able efforts of Dr. Goebbels, the people have been so propagandized as to the savagery "potential" of the Allies, that they stand in fear or walk in haste when Allied wishes so dictate. The non-fraternization policy has aided considerably in preserving this attitude.

Many DPs are confused that their liberators refuse to recognize their signs of friendliness. In their attitude toward the Germans they feel revenge and are willing to loot and rob any target of opportunity.

German people especially in towns that were subjected to bombing, are relieved that the war has passed by. They are anxious to return to work. They are accustomed to discipline and will in general carry out instructions given by Allies.

(a) No difficulty has been experienced over requisitions. Naturally, there is deep regret when homes and personal effects must be given up.

(b) Reaction to Military Government has been excellent.

(c) No deliberate policy to curry favor with Allies exists.

2. Germans are returning to work and helping to clean up war damage in towns. This is a huge task in many badly damaged towns, made more difficult by lack of gasoline, motors and special implements. Plowing is in progress. However, seed shortage exists in certain regions and manpower shortage is great due to loss of foreign laborers and absence of men of military age. Public services are being restored under Allied direction.

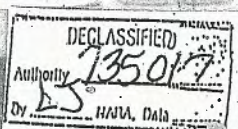

3. Nazi scorched earth policy was almost a complete failure.

4. The impression gained in dealing with German ecclesiastical personnel is that the influence of churches has proved to be a stabilizing factor, especially since the fear of Gestapo reprisals and the closing of religious institutions no longer exists. Also, the vestiges of Christianity, anti-dating the Nazi regime are asserting themselves as a form of living sanely once more. The administration and relief program, in which churches can participate, have been limited. Many church organizations were dissolved during the Nazi rule. Pending resumption of such activities, churches have been aiding and assisting in relief programs as far as limitations allow. A committee of clergy is assisting the de-Nazification program in Landkreis Coesfeld.

5. In most regions the Nazi Party is held responsible for the destruction of their cities and homes, rather than the Allies. Many cases are known where local population desired to surrender their towns without resistance. In some cases, they succeeded while in others, Party officials forced a defense of the town with resultant destruction of life and property. Many bitterly blame the Party for their misfortunes, a feeling that seems to be increasing. In several places, groups of anti-Nazis have volunteered to act as informants against the local Nazis.

-1-

~~SECRET~~

~~SECRET~~

Very few Nazi Party high administrators remained. Nearly all withdrew before Allied arrival.

There seems to be no feeling against German generals or Army hierarchy. Most Germans feel that the generals were victims like themselves of the Party.

6. Feeling as to Germany's future is mostly one of despair. All agree that it is dark. Fear of starvation is felt. There is little talk of a separate Rhineland.

7. There is no appreciable redirection of thought to pre-1934 political parties.

8. One vehicle belonging to a XIX Corps Medical unit was booby trapped. No other sabotage incidents reported. There have been no deliberate destruction of German property after MG was established.

9. One murder and one warning attributed to Werewolf have been reported. The only reported reluctance to serve in office came from Lippstadt before the Ruhr pocket had been eliminated, at which time people thought the Nazis might break out in their direction. No further tangible results on willingness of German officials to serve have resulted from the assassination of the mayor of Aachen. There is no widespread fear of the Gestapo or Nazi working underground. There is some fear in towns where raiding soldiers or SS men still remain in the vicinity. In such towns fanatic and reckless youths are on occasion encouraged to lawless acts.

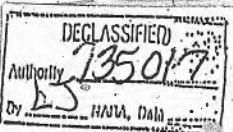

10. Strongly Nazi, hence relatively Anti-Allied populations have been reported in Hexter, Halberstadt, Lehrte, Stadtkreis and Landkreis Stendal. No demonstrations reported.

a. Prisoners - 872 PWs passed thru Div cage during the period. Total for this operation 4,039. Grand total 30,920.

b. Miscellaneous - SHAEF has designated a new "T" Target to be secured and guarded and described as follows: Hansens Gummi und Packungswerke located at HANNOVER, WULFEL, Hildesheimer Chaussee, a factory which manufactured rubber hoses and belts. (This target is presently located in the 134th Inf Regt sector)

There has been no authorization for movement of any civilian, Red Cross, or prisoner of war mail to or from occupied GERMANY, and it is requested that all military personnel be cautioned not to accept mail from German civilians for onward transmission, without specific authority. Detailed authorization for such mail services, to and from GERMANY, will be issued by this headquarters when security and transportation conditions can be properly met. (Source: Ninth U S Army, Memorandum No 170, 1 May 45)

Use of Extracts of Personal Letters Received Through Censorship:-

1. It has been learned that the extracts of personal letters distributed to interested commanders are being used directly as a basis for disciplinary or admonitory action, even though there is no violation of security.

2. This practice goes beyond the permissible bounds of censorship. The purpose of censorship, as outlined in War Dept & Theater publications, is to safeguard military information. In the exercise of this function, information is frequently obtained which, while per se not punishable, indicates that orders of various types are being violated. This information is passed to the interested commanders but, while it may indicate the need for an investigation, it should never be used as the basis for direct action.

3. Thus, if a soldier writes of violating the existing orders against looting or fraternizing, it may be appropriate to ascertain whether he has indulged in such practices; but he should not be taken to task for writing about it, nor should he even be allowed to know that his letter was intercepted and the contents reported. (See: Ninth U S Army, Memorandum No. 172, 2 May 45.)

1. COUNTERINTELLIGENCE:

Numerous military and hostile civilians continued to hide out in the HARZ mountains. These individuals have gone so far as to establish rd blocks and apparently are carrying out a program of harassment against individuals and small parties. At 1700H hrs yesterday at a point 1-1/2 miles W of SCHIERKE, DO257, the bodies of 2 EM were found by a patrol. One body was in the drivers seat of a 3/4 ton trk while the other body was found under the veh. These men had been shot to death and Medics stated they had not been dead longer than 4 hours. Markings on this 3/4 ton trk were "9A - 3105" and "VHQ 26". These men were from a VHF site located at G9959 which rpts being continually harassed; additional Trs have been sent to area to protect this position. (See: XIII Corps G-2 Per Rpt No. 187)

At HOHENHAUSELN X5909 arrested Gunter SEHLER, 16 years old, from Klein Solchen. A security threat. He stole an American soldier's pistol and buried it in a garden. Investigation showed that a gang of children, ranging from 12 to 16 years of age, have been attempting to steal pistols. Other members of this group were rounded up and in the presence of their parents were warned that any more such activity would bring swift and severe punishment. It is not believed that the thefts were made with any hostile intent, but merely as a childish prank and for the guns as souvenirs.

At BARFELDE C4390 arrested Pierre SONET, former Captain in Belgium Army, served in Propaganda Section SS Voloon Div in Berlin. Rank Captain. Disp. Upon CI interrogation will be turned over to Belgium authorities.

1. COUNTERINTELLIGENCE:

Four wanted personalities arrested by GARDELEGEM agents on 6 May have escaped from the enclosure at CALBE. They are:

1. LEIBL, Hans, 23 year old Chicago-born German, speaking perfect American, fluent German. Height 6'3", weight 185, dark complexion, black hair parted on the side. This traitor returned to GERMANY in 1939, renounced his American citizenship, entered the German Army and later went on the air as a propaganda broadcaster for the German radio.
2. KAUFFMANN, Gunther, 32 year old San Salvadorean, speaking fair English, perfect German, perfect Spanish. Height 5'7" tall, weight 165, heavy mustache, wears hair long, combed straight back, Spanish accent in English speech. This man broadcast over the German propaganda radio to Spanish-speaking nations. May be accompanied by his wife who is German, 5'3", dark hair, broad cheekbones, probably dressed in slacks.
3. KAUFFMANN, Erich, 28 year old San Salvadorean, speaking poor English, fair French, perfect German, perfect Spanish. Height 5'8", weight 180, balding head but hair is long in back. Wears heavy tortoise shell rimmed glasses. This man broadcast in German over the BERLIN radio.
4. CRUNAU, Lieselotte, 19 year old Guatemalan girl, speaking English with a heavy Spanish accent, perfect German, perfect Spanish, 5'4", weight 120 lbs., exceptionally attractive, well-dressed, wearing gray sport coat, gray slacks, turban. Affianced to Erich KAUFFMANN. This woman broadcast in Spanish over the German propaganda radio.

These four persons made their way from CALBE to SOLPKE, Y4140, where they picked up their bicycles last Wednesday and were making their way to a rendezvous at the Oberforstamt (Main Forestry Office) in HANNOVER. From there they were proceeding to the home of the KAUFFMANN'S mother in WIESBADEN.
(See: XIII Corps G-2 Per Rpt #189)

CIC investigated in cooperation with MG an incident at the residence of Frau ZIMMERMANN, MUNDER X1801, who was the recipient of a home-made bomb wrapped in a paper package. The package was given to a small boy by a girl, whom he thought to be Polish, to be delivered to Frau Zimmerman. Upon opening the package Frau Zimmerman noticed smoke coming from it and threw it on the floor just as it burst into flames which lasted momentarily. No one was hurt. Frau Zimmermann when questioned stated that she had no known enemies. The bomb was inclosed in a hinged wooden box, equipped with a fuse operated by a trip wire which would be released upon opening the lid. However, probably due to a faulty fuse, the device broke in to flame prematurely instead of exploding.

1. COUNTERINTELLIGENCE:

COUNTERINTELLIGENCE: Arrested Frau Von RHEDEN, RHEDEN C 4186 . She is the wife of Baron Hartwig von RHEDEN, Stabsleiter in Dem Landsamt fuer das Landvolk (Social and cultural questions). He is the author of the book "Vom Werden des Deutschen Bauernstandes", published in 1927. He left the town of Rheden on 2 April, 1945 to return to his job in Berlin, and his whereabouts since then are unknown. He joined the party and SA in 1931, and held the rank of SA-Obergruppenfuehrer. Frau von Rheden used to run schools for girls in Friesbergholzen and Bueckeburg, indoctrinating the young people with Nazi ideals. She is the author of the booklet "Der Lebenskreis der Landarbeiterfrau in Bauerntum und Volksgemeinschaft," published in Hannover in 1937. Her son-in-law KASTENDICK, Walter was investigated and oriented. He was a captain in the German Army, adjutant (2A) on the staff of the 4th Panzer Division, wounded in the battle for Warsaw in 1943.

Arrested Kurt WIGAND vicinity BAD PYRMONT CO477, an SA Oberfuhrer from 1932-1939 then entered the Wehrmacht as a medical officer. Joined party in 1939. Also arrested Karl BOSCHMANN, SA Hauptsturmfuhrer.

On 4 May 1945 an American officer went to a small German farm 4 km from HERZOGEN-AURACH. O-277125, on the information from a Russian informant that about 20 German soldiers had left their arms and equipment there. The peasant owner "employed" two Russians on his farm. For fifteen minutes he denied everything. Finally, at the threat of burning down his farm to facilitate searching, he weakened. He took a pitchfork into the barn, scraped a hold in the hay and shoveled away a pile of manure. He then dug into the earth which revealed a cleverly hidden trap door. The trap door led to a concrete lined man-hole. There the searchers found several rifles (among these were a few sniper's rifles), ammunition, uniforms and other equipment. A check at another farm netted several more rifles and a "sacred" Nazi flag with a silver eagle atop the staff. (See: XIII Corps G-2 Per Rpt 190)

1. COUNTERINTELLIGENCE:

Entire personnel of Peine CIC Team undertook investigation of explosion of German train bearing American chemical ammunition, and miscellaneous German material, which occurred just on the W outskirts of Peine Vic X692166 at Approx 1730 hours, 16 May 1945.

Eight men were taken into custody by the CIC and interrogated at great length. Three comprised the train's crew, the engineer, fireman and Zugfuhrer (conductor). Three others were railway employees "hitch-hiking" a ride on the train and two others were spectators at the scene of the incident.

The testimony of the occupants of the train was substantially as follows: The train, consisting of the locomotive and twenty-seven cars, left Braunschweig at 1552, 16 May 45, destination Lehrte. The train halted first, for ten minutes, at Gross Kleidingen and then proceeded to Vechelde, where it stopped for Approx thirty minutes. Here the locomotive was uncoupled and shunted to a spur track while fifteen cars were added to the front part of the train. Thereafter the locomotive was recoupled so that the cars added to the train trailed immediately behind the locomotive.

All men denied having knowledge of ammunition in the train and the engineer stated that he was told by the Zugfuhrer at Vechelde that the cars added to the train contained "beutur" (booty) which fact he deduced from a placard on the side of one of the cars.

All individuals interrogated testified that no stop was made in the PEINE station. The engineer stated that he first saw a burning flat car when he looked back from the engine cab while the train was rounding a bend just outside the PEINE station. He halted the train and the Zugfuhrer ran back and uncoupled the train at a point one or two cars removed from the burning car. Thereafter he pulled away with Approx six cars to a point about 800 meters from the flaming car.

Investigation is continuing. All leads are being followed and stories investigated. A possible cause advanced by the crew is that hot cinders from a cheap grade of brown coal briquets, made of compressed coal dust, is responsible for original fire.

Corps Ord personnel, after inspection of scene, rptd that there were eleven cars of American chemical Ammo, ten of which blew up, concur that the most logical cause of fire and resultant explosions was from hot cinders emanating from the locomotive. (See: XIII Corps G-2 Per Rpt #191)

2. MISCELLANEOUS:

a. Higher Headquarters urgently desires the apprehension of General Der Artillerie Daelmont formerly of CWK. Interrogation of prisoners, particularly officers, will include questions leading to possible location of this personality. Pertinent information to this Headquarters by quickest means.

1. COUNTERINTELLIGENCE:

XVI Corps has reported two separate incidents of wire cutting in the Corps sector. The first incident occurred at approximately 151500B May at which time three pieces of four spiral cable were removed from a line in vicinity of A6508. During the afternoon of 16 May, the second incident was reported to have taken place along the same communication line approximately one mile northwest of the first incident and in vicinity of A6210. Investigation is being conducted by 75th Div for the purpose of identifying the responsible person or persons. (See: XVI Corps Special G-2 Per Rpt #101)

Nails were driven into tires of a jeep near MESCHDE B638505 and a tree was blown by demolition charges across the highway at B639510. Investigation has failed to disclose the guilty parties in either instance. (See: Ninth US Army G-2 Per Rpt #254)

2. MISCELLANEOUS:

a. Censorship - The following instructions from higher headquarters are published for information to all concerned: Unit censorship of mail and telegrams of all personnel under this command will be discontinued immediately. Base censorship will continue. Unit censor stamps will be retained until further advised.

b. Miscellaneous - Higher Headquarters reports prominent Germans have engaged in suicide attempts after capture. Necessary measures will be taken to prevent such occurrences. Important prisoners will be stripped and thoroughly searched immediately following capture to determine possession of means of self destruction. Suggest prisoners of Counter Intelligence interest receive special attention as these more likely to possess self destruction materials than others. Invite attention to means such as shoe laces, belts, neckties and watch crystals. (See: TWX XVI Corps, 18 May 45)

In the VIII Corps area, the Bürgermeister of BAD SALZTUFEN H7649 was removed following a CIC investigation. Details concerning the investigation are not presently available. Reports of atrocities in the SCHWALDEN Landkreis are being investigated. Fourteen armed enemy desirous of continuing hostilities were reported in the SELSENDORF J3303 area. Investigation failed to locate them. An apparent act of sabotage was reported in the cutting of a spiral 4 cable with a sharp instrument in the wooded area near J450020. The 70 Infantry Division apprehended two persons who are on the SHAEF automatic arrest list but no details concerning the arrest are available. (See: Ninth U S Army G-2 Per Rpt #256)

WANTED: KASPER, Obersturmführer, USKK and SA, disguised in beard and blue-colored spectacles. Last seen by an informer in LINNENRUCCE Garage, Lagesche Strasse, DETMOLD B787718. KASPER is a tall, broad man with thinning blond hair, about 55 years old. Believed to be hiding near OERLINGHAUSEN B638741). (See: XVI Corps G-2 Per Rpt #103, 19 May 45)

A check of about 50 houses in RECKLINGHAUSEN A6235 revealed that all civilians had not turned in their firearms as required.

A group of seven boys were apprehended together with three German rifles. Leaders were Willy and Leonard Wahle. (See: 75th Inf Div G-2 Per Rpt #122)

Two German boys threw rocks at a discarded panzerfaust lying on a heap of rubble; an explosion resulted which very seriously injured one American soldier and wounded another slightly. Whether or not the boys knew that the panzerfaust was mined or booby-trapped has not yet been ascertained. They and their fathers have been apprehended and are undergoing thorough examination. (See: Ninth U S Army G-2 Per Rpt #257)

A search is being made for Dr. MEYER, former Gauleiter of Westfalen Nord, and Reichsstatthalter of Province Schaumburg-Lippe. MEYER was last seen on 1 April 1945, and informants state that he may be in hiding at his hunting lodge. Inquiry is being conducted as to the location of this lodge. ANNEX NO. 1 to Accompany G-2 Periodic Report No. 298

CENSORSHIP

Pending revisions in censorship regulations the following will apply:

Prohibited Statements: - (Substitute for par 11, ETOUSA Circular No. 6)

Specific items which will not be mentioned directly, or by inference, in personal correspondence include:

a. Details of movements of military, air force or naval organizations to, from or within any theater of operations, except that personnel may reveal details of movements to this theater which occurred more than six months prior to the date of communication. Such details will include designation of ports of embarkation and debarkation, dates of arrival and departure, names of transport and length of voyage.

b. Classified military armament, equipment or supplies of any kind.

c. Strength, efficiency, training, morale or the detailed organization of US or allied armed forces or units thereof.

d. Distinguishing signs used to identify organizations, their transportation or their baggage.

e. Details of operations against or by the enemy on land, sea or in the air, which might reveal tactical methods. Personnel may reveal experiences in combat including dates, locations and unit designations, provided tactical methods are not revealed and classified equipment is not discussed.

f. Plans, forecasts or orders for future operations or movements whether known or surmised.

g. The present use, condition or probable extension of ports, harbors, transport facilities or signal communications, including the extent of demolition and repairs, unless officially released.

h. Any information regarding casualties including injuries or death by accident or natural causes, except that individual casualties may be mentioned after the official notification has been given to the next of kin. (In the absence of notification of such official release, unit censors will assume that a casualty has been released thirty days after notice has gone forward from the unit to the AG Casualty Division, Headquarters European Theater of Operations, U. S. Army, APO 887 U. S. Army)

(1) Under h personnel suffering wounds or injuries or persons authorized to write for such personnel, including American Red Cross representatives may write about their own wounds or injuries five days after incurrence.

i. Criticisms or statements of a disparaging nature which would bring our armed forces or those of our allies or the military government in the occupied areas into disrepute.

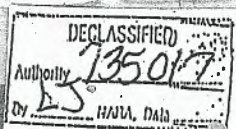

j. Atrocities against the enemy or any actual or rumored breaches of the Geneva Convention or the Rules of Land Warfare, unless officially released.

k. Any subversive material.

l. Any information concerning enemy espionage, sabotage, or subversive activities, actual or rumored, unless officially released.

A German civilian WILLI ROECKER, was ordered to halt after curfew at a road block A886035. He broke into a run. Guard fired once over his head to no avail. Three more shots were fired. Two bullets went in German's head, one in stomach. ROECKER is now in a military hospital, not expected to live. (See: XVI Corps G-2 Per Rpt #105)

29th Div's BREMEN Task Force reports very optimistically on CI conditions in BREMEN and BREMERHAVEN. The following is quoted from its CI Report No. 1, dated 18 May. The only notable case of resistance organizations yet discovered is the AKTION BUNDSCHUTZ, a Werewolf type organization. In this area it appears not to have been completely organized and the taking of the city has deprived it of leaders. Due to the large number of security arrests it is temporarily blinded. Three suspected members are now under arrest and a previous one committed suicide in his cell. (See: XVI Corps G-2 Per Rpt #104)

Telephone wires on the outskirts of NORDHAUSEN D1228 were discovered cut in ten-foot sections over a distance of 100 yards. Attached to one piece of wire was a sheet of white paper with SS markings on the back and the following message written in German:

"Dated 18 May 1945

From: German SS - Gestapo - NSDAP

To : Military Commander of NORDHAUSEN and Burgomeisters of NORDHAUSEN and Burgomeisters of NORDHAUSEN and SALZA D1029.

We wish all three of you a happy Whitsunday. You may dream what you like only don't dream that there are no more Gestapo - NSDAP.

Hitler still lives and his last warriors have not yet fallen. That you have done today you must answer for tomorrow....to the victor who wears the Iron Cross on his chest.

(Signed) Polite greetings from the SS

Heil Hitler"

On the reverse side these words were written:

"The telephone lines will secretly be out of order. Any attempt to apprehend the people who did this will be in vain. You won't find the real Nazis. You will find only those who thoughtfully interpreted Hitler's ideas and who have thoughtfully carried them out. Fate is hard but just." (See: 5th Arm Div, Thru: VII Corps)

1. COUNTERINTELLIGENCE:

On information of 83rd Division CIC that two SS men were hidden in a hospital, CIC visited EICHENBERG Hospital in VERMIGRODE 01064. The SS men were found, but only after the medical officer in charge admitted having given them permission to change their rank, had removed all evidence of their SS affiliation, including tatoo, and had issued them fake solthucks. The medical officer and SS men were arrested. On the basis of field experience, the 220th CIC Det, XX US Corps recommends that: German doctors, especially prosperous ones, be regarded with suspicion. Many of them have been found to hold high rank in the SS; many occupy official Party positions on the Kreis or Gau levels; some have connections with the Sicherheitsdienst. The cases quoted above demonstrate that they have not hesitated to violate the medical code in order to serve National Socialism. (See: Ninth US Army G-2 Per Rpt #260)

2. "T" Targets to be released - none.

b. SAFEGUARDING CLASSIFIED DOCUMENTS:

1. An excessive number of security violations with respect to classified documents, including their loss, has come to the attention of the War Department. The compromise of a cryptographic system frequently requires its replacement at considerable expense and loss in time and energy.
2. Reports of investigation indicate that the most frequent violations occur in the following categories:
 - a. Failure to execute reports of transfer when there is a change in custodian so that the successor does not become fully appreciative of his responsibilities in the premises.
 - b. Failure to maintain the prescribed receipt system.
 - c. Failure to comply with regulations in connection with the destruction of registered matter.
 - d. Failure to give notice of loss or compromise to the Office of issue by the fastest means available.
3. Study of the papers in the cases reviewed discloses that most of the violations have occurred because the military personnel concerned were careless or lacked the necessary familiarity with the provisions of AR 380-5.
4. It is desired that necessary steps be taken to insure that all personnel engaged in the handling and transmission of classified material read and become familiar with the pertinent provisions of AR 380-5 and that strict compliance be effected therewith to the end that violations of security may be reduced to the lowest practicable minimum. In this connection it is desired that particular emphasis be placed upon the following:
 - a. Signing of required transfer report or prescribed receipt immediately upon delivery of material requiring such report or form.
 - b. Maintenance of a proper inventory of all material for which the custodian is responsible.

S E C R E T

b. SAFEGUARDING CLASSIFIED DOCUMENTS (Continued)

c. Strict responsibility on the part of each individual signing for material until relief therefrom by proper transfer report (or prescribed receipt in appropriate cases) or report of destruction pursuant to regulations and applicable directive.

d. In the event of loss or subjection to compromise the making of immediate report thereof, by the fastest means available, to the office of issue.

5. It is also desired that all concerned within your command be informed of the above. (See: Hq Ninth U S Army, Memorandum #188, 11 May 1945)

c. Weather - Continued cloudy throughout the day and tonight with intermittent showers.

1. COUNTERINTELLIGENCE:

Two rifle shots at a Traffic Control post T3t1441 at 0330R with no casualties. A small concrete pillbox was discovered vicinity K243249 which contained 38 rifles, 100 blasting caps, ratches and other miscellaneous items. Further investigation is under way. Counter intelligence arrests included 16 Nazi officials, 3 Gestapo, 7 SS personnel and 4 miscellaneous characters. (See: Ninth U S Army G-2 Per Rpt No. 262)

The enemy has established buried or hidden caches of arms, food, and demolition or sabotage material on a considerable scale throughout this theater; a number of these have been discovered. All CIC personnel should be reminded that sabotage material is hidden inside standard Wehrmacht preserved food cans. These cans, found to contain sabotage material, have number 36 stamped on top and bottom. No cans have so far been found to be booby-trapped. A full description of enemy sabotage equipment camouflaged as Wehrmacht preserved food cans will be found in the reference booklet, "Enemy Sabotage Equipment (Identification)", War Office, Dec 1943, 122-126. Caches must be re-examined to see if, among food supplies in them, there are cans with number 36 on them, which may contain sabotage material. These must be opened. (See: TUSA Thru VII Corps)

A case of the sabotaging of baseball fields was unearthed yesterday morning in EISLEREN by 1106 Engr C Gp. Around the first base position of each field was found both large and small pieces of glass mixed in with the dirt. These two fields, in daily use by the 238th Engr C Bn, had been employed the night before the incident. (See: VII Corps Thru XIII Corps)

1. COUNTERINTELLIGENCE:

Thirteen men, many of them former members of the HJ have been apprehended for concealment of weapons. All of them are in GUTERSLOW, which seems to be a focal point for a possible resistance organization. All have been turned over to Military Government for trial, and more arrests on the same charge are expected within the next several days. The matter is considered serious by the CIC investigators involved who are giving the situation the utmost attention. (See: 55th AAA Brig thru XVI Corps G-2 Per Rpt #110)

Identification of German GIS personnel: - Officers and men of the German Intelligence Service, when serving in the field, are attached to military units as low as Divisions (but not lower) and wear the uniform of the Wehrmacht. It is highly probable, therefore, that many G.I.S. members have already found their way into P.W. cages without being identified and that many more may follow. The following tests are suggested to identify them: (1) The reference in a prisoner's pay-book to the Ersatz-Pataillon 600, or the Lehrregiment Kuersfuerst, or the Nachrichten Regiment 506, as his base unit. (2) The description of a prisoner's unit in his papers by its Field Post Number...e.g. Dienststelle F.P. No... (In this case the F.P.No. should be checked against the list which will shortly be issued.) (3) The reference in a prisoner's papers to his being attached to the Ic (senior intelligence officer) of a Division, Corps, Army or Army Group. (See: SHAFF Thru VII Corps)

At GELSENKIRCHEN A5524 placed in local jail Kriminal Secetaire of the Gestapo, Herr Dussen, also a Sturmfuhrer in the SS, pending investigation of him and persons connected with him. This man will be evacuated to Camp 2 within the next few days.

At LUDINGHAUSEN A 7952 arrested SACURBA, Theodore H J, member found with rubber blackjack and dagger. Sent to Camp 2 as security threat. Arrested six officials on Kreis level at Coesfeld, the details on which are pending completion of a general survey in that area.

At RECKLINGHAUSEN A6235 arrested SCHLIEFER, Franz, ortsruppenleiter of Hochlaer-Markt. Evacuated to Camp Q. Continued search for TEHOLD, Wilhelm, Gestapo president of Muenster, reported to be in the area.

1. COUNTERINTELLIGENCE:

At BOTTROP A4427 arrested the following for Camp Q: Julius GUTHER, who performed duties of a Kreisleiter and Dienststelle for PSV; Bernhard FREUSNER, Ortsgruppenleiter; Gustav SCHIPPER, SA Sturmbannfuhrer; Alfred WEBER, company commander of SS police.

At GLADBECK A4831 arrested Fritz SCHWEERS, Ortsgruppenleiter Witte I, fled 28 March and returned 24 May, for Camp Q; Alexander JOSEPHS who admits to affiliations with Gestapo and is ardent Nazi; for Camp Q; Friedrich BARTCKS SA Sturmfuhrer and fanatical Nazi, for Camp Q; Franz SCHAUERTE SA Obersturmfuhrer, placed under house arrest for 14 days pending further investigation.

At RECKLINGHAUSEN A6336 arrested for Camp Q, Friedrich KUTBERG for acts of sabotage; Ernst WEISMANN Kreisratsleiter NSRB from 1936 to 1942 and Captain in Wehrmacht without any discharge papers.

A prisoner of war who was the chief scout of SS Army Scouts escaped from a camp near DAHRE Y1472. The prisoner, named Hans WOLBORS and of undetermined age, was dressed in a Wehrmacht uniform at the time of his escape. He is stockily built and has black hair. On 25 May one of our guards was fired on by a civilian in HEFERTH G9287. Investigation found neither arms nor ammunition in the town. At O530R a friendly patrol found a 20 yard section of wire around neck high stretched across the road near TREFFURT H7585. A patrol which traversed the same route at 252230R, detected no wire. VIII Corps reported that several wire lines leading to friendly outposts in the SCHWALKALDEN H9240 area were cut at 251800R. Several prisoners infiltrated into the 6th Cavalry Group area from the south in possession of improper discharge papers. Enemy soldiers at large in the area who have heard that discharges are being issued are turning themselves in at the cages. (See Ninth Army G-2 Per Rpt #264)

1. COUNTERINTELLIGENCE:

On 26 and 27 May there were eight cases of wire cutting reported by the 79th Infantry Division. Seven of these incidents took place in the 314th area and one in the 313th area. All incidents are being investigated and necessary security measures enforced. (See: XVI Corps G-2 Per Rpt #112)

Enroute to his home in the Rhineland, an SS man was apprehended by the CIC at CCR. He told the story of having removed his SS uniform, putting on a Wehrmacht uniform, and surrendering to the Russians in Berlin. He was held but a few hours when they instructed him to get into civilian clothes and go home. It was interesting to note from his observations while in Russian territory the similarity to our own methods of operation. The Russians have a "Military Government established and announce their proclamations by public address system. They do not, however, have an extensive security plan set up. He heard of an organization which was arresting all Party Officials, Gestapo, etc. The work which would correspond to that performed by the CIC: Western Allied Displaced Persons are being moved as rapidly as possible toward the Elbe River. (See: 5th Armd Div thru VII Corps)

2. MISCELLANEOUS:

a. "T" Targets:

1. New "T" Targets to be seized and safeguarded - none.
2. "T" Targets to be released - none.

b. Miscellaneous - Classification of Messages: 1. Heretofore many messages originating in this theater have borne classification requiring encoding and decoding, which placed a tremendous burden upon communication facilities. 2. Since the cessation of hostilities in this theater, many messages of the type formerly transmitted in code and requiring a high classification can now be transmitted unclassified in the clear or their classification reduced to "Restricted." 3. All concerned are enjoined to analyze each message so information contained therein may be transmitted under the lowest possible classification.

c. Weather - Continued clear to partly cloudy throughout the day today, becoming increasingly cloudy late this afternoon.
